

Think we're providing just another Veterinary Practice Management System?
think again!

Understanding your market, everyday tasks and typical challenges has helped us develop our large animal veterinary software to offer everything you need.

We haven't tried to make your requirements fit our system, instead we listened from the start and built it with all the detail and smart features you need to best support your patients and practice.

There's a lot to keep up with in a busy practice, but with our Mixed Animal PMS you're in safe hands.

VetIT promises you:

- An intelligent and intuitive interface, designed to be user-friendly
- Simple IT infrastructure with the peace of mind that backups happen automatically
- Access from anywhere, any time
- Outstanding support 7 days per week from our friendly team
- Cloud based technology
- Thorough and categorised in-depth reporting
- Comprehensive accounting features to allow management of payments, invoices and debt

PLUS the ability to:

- Configuration setup addresses the needs of all your disciplines
- Onsite working using our mobile app even without a connection
- Customise pricing per herd or practice, client and VIP club levels
- Input different addresses for herds and horses in different locations
- Configure appointments to the time length that you need for different disciplines or locations
- Import and stock control with batch numbers for distribution
- Export detailed reporting information for your business

Our VetIT practice management software is a comprehensive system with functionality we know you'll be impressed with. We've included a summary here but please don't hesitate to contact us if you would like to discuss any in more detail. We look forward to your call.

Looking for more?

To view our full system features list, contact us to book a demo, or to talk to one of our specialist team.
