

Think we're providing just  
another Veterinary Practice  
Management System?  
**think again!**

Understanding the market, everyday tasks and typical challenges has helped us develop our small animal veterinary software to offer everything you need.

We haven't tried to make your requirements fit our system, instead we listened from the start and built it with all the detail and smart features you need to best support your patients and practice.

**With our PMS handling your small animal veterinary practice details, you can focus on delivering the very best care for your animals.**

#### VetIT promises you:

- An intelligent and intuitive interface, designed to be user-friendly
- Simple IT infrastructure with the peace of mind that backups happen automatically
- Access from anywhere, any time
- Outstanding support 7 days per week from our friendly team
- Cloud based technology
- Thorough and categorised in-depth reporting
- Comprehensive accounting features to allow management of payments, invoices and debt

#### PLUS the ability to:

- Flexible 'drag and drop' diary to view multiple days, locations and hospital bookings
- Price profiles allow customisable prices at practice, client and VIP club levels
- Stock management – import deliveries, manage price updates, stock levels and dispensary
- Idexx lab integration
- Reminder management module allowing multiple different delivery methods - SMS, Email or post
- Export detailed reporting information for your business

Our VetIT practice management software is a comprehensive system with functionality we know you'll be impressed with. We've included a summary here but please don't hesitate to contact us if you would like to discuss any in more detail. We look forward to your call.

## Looking for more?
